Nine years designing products, most recently AI-assisted tools, from research through shipped code.

Experience

Jul 2026 — Present
DANCE COACH
Independent project

Product Designer & AI-directed builder

- Designed and built an AI practice app for Latin dance teams (student app, instructor dashboard, pose-analysis backend) by directing Claude Code, following the Open Vector curriculum.
- Interviewed local dance instructors and students to synthesize actionable insights.
- Ran five rounds of accuracy work on the pose analysis, each measured against real takes; when the feedback still wasn't reliable enough to show students unreviewed, paused building to validate.

Mar 2024 — May 2026
PEARSON
Remote · Higher Ed

Senior Product Designer

- Led a cross-product UX audit of Pearson's "Generate" AI assessment portfolio (Writing Solutions + Freehand Grader); its findings set the direction of both products' v1 redesigns and ongoing roadmap.
- Led v1 redesigns within the Generate suite, including the Writing Solutions assignment-creation flow.
- Won Best Solution for User Impact at Pearson's 2025 AI Hackathon for Focus Gym.

Interaction Designer

- Re-designed Pearson Collections, driving an 85% YoY increase in total subscriptions and a 15% lift in digital conversions.
- Shaped Pearson+ Job Match from closed POC to public MVP — shipped the public home, Careers section, and Work Style Lens™ assessment, with user testing and WCAG annotations.
- Contributed to a scalable design system, aligning typography, color, and components across UX teams.

Nov 2017 — Apr 2021
PEARSON
Boston, MA

Associate Interaction Designer

- Produced wireframes, prototypes, and high-fidelity mockups for instructor- and student-facing products.

2017
EARLIER
Boston, MA

- UX Teaching Assistant, General Assembly: mentored UXDI bootcamp students.
- Product Designer, Voatz: designed mobile-first flows for a secure mobile voting platform.

Skills

Interaction design · Visual design · Design systems · Information architecture · Heuristic audits · Moderated user testing · Funnel & attrition analysis · Accessibility (latest WCAG) · AI product design · Rapid prototyping · Cross-functional facilitation · HTML / CSS / JS · React (working) · AI agents (Claude Code)

TOOLS — Figma · FigJam · UserTesting · Pendo · Claude Code · Claude Design

Education

Wellesley College — Wellesley, MA
BA, Economics

FosterHealth Institute — In progress
Healthcare User Experience Design

Open Vector — In progress
Curriculum for design-led engineering
